PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with hands-on experience in IT support, computer operations, troubleshooting, and web development. Skilled in user support, technical problem-solving, and IT tools, with strong communication and teamwork skills. IT Support Service Level-3 certified.

WORK EXPERIENCE

Lead Trainer

Jan 2025 – Jun 2026

Lead Spring IT

- Trained 50+ school students in Microsoft Office, computer operations, and essential digital skills.
- Delivered foundational IT training covering computer operations, operating systems, typing, and basic troubleshooting.
- Provided practical guidance to users in resolving common computer and software-related issues.

Web Developer

Apr 2024 – Dec 2024

Lead Spring IT

- Developed and maintained responsive websites with frontend features and UI improvements.
- Debugged issues and optimized website performance, usability, and reliability.

TECHNICAL PROJECTS

InspireInk – Writing Prompt Generator

- Developed a React Native application for generating, saving, and sharing writing prompts.
- Implemented category-based prompt generation and local storage for managing previously created content.

DermAI Diagnostix – Deep Learning Skin Disease Classifier

- Developed and benchmarked ResNet50, VGG16, and EfficientNet-B0 on HAM10000 and ISIC datasets, achieving 80.96% test accuracy.
- Integrated real-time prediction through a Flask-based web interface and implemented Grad-CAM explainability.

EDUCATION

Bachelor of Science in Computer Science and Engineering

Jun 2022 – Sep 2026

University of Global Village

- CGPA: 3.43
- Thesis: Development and Study of New Deep Learning Architectures for Skin Disease Classification

CERTIFICATIONS

- **IT Support Service, Level-3** – National Skills Development Authority (NSDA)
- **Python Programming Course** – Bangladesh Computer Council
- **Foundation English Test (FET)** – British Council; CEFR Level B1, Score: 73

TECHNICAL SKILLS

IT Support: Hardware & Software Troubleshooting, Software Installation, System Maintenance. Microsoft Office.

Technical Tools: Git, GitHub, Python, JavaScript, HTML, CSS

Professional Skills: Problem Solving, Data Analysis, Team Collaboration, Adaptability, Research.

Additional Skills: Google Workspace, Adobe Photoshop, WordPress, Basic Networking, Canva, AI Tools.
