SUMMARY

Computer Science undergraduate with hands-on experience in IT training, web development, and AI-based application development. Passionate about building practical technology solutions and applying analytical skills to solve real-world problems.

WORK EXPERIENCE

Lead Trainer, Lead Spring IT Jan 2025 - Present

- Trained 50+ school students in MS Office and basic computer skills.
- Developed a basic computer course on typing and basic computer troubleshooting.

Digital Marketing Associate, Lead Spring IT Apr 2024 - Dec 2024

- Conducted keyword research and SEO optimization for 5 client websites.
- Supported content marketing and data analysis across client projects.

PROJECTS

InspireInk - Writing Prompt Generator

- Built with React Native, generates writing prompts and lets users save and share their writing.
- Generates fresh prompts by category and stores past writings locally for later review.

AI-Powered Skin Disease Diagnosis System

- Built an EfficientNetV2-based CNN trained on the HAM10000 and ISIC dermoscopic datasets to classify skin lesions.
- Implemented Grad-CAM explainability and served real-time predictions via a Flask web interface.

EDUCATION

Bachelor of Science in Computer Science and Engineering June 2022 - Ongoing

University of Global Village

- Thesis: Deep Learning Approaches to Skin Disease Classification (in progress)

CERTIFICATIONS

- IT Support Service, Level-3, NATIONAL SKILLS DEVELOPMENT AUTHORITY (NSDA).
- Foundation English Test (FET), British Council — CEFR Level B1 (Score: 73)
- Python Programming Course by Bangladesh Computer Council
